CLASH; FOUR DIE

Six Hundred Marchers in  
Parade Fired On From  
Old Castle

BOLOGNA, Italy, Dec. 22.—A serious clash occurred Tuesday at Ferrara, twenty-five miles north of Bologna, where the Socialists had organized a demonstration in protest against the recent attacks in Bologna upon Socialist deputies. Four persons were killed and more than thirty wounded before police and troops restored order. Fifteen red guards were arrested.

More than 10,000 persons gathered for the Socialist demonstration. Authorities believed the absence of police and carabinieri from the scene would lead to a riot.

The theatre was decorated with red flags. In the royal box the coat of arms of the house of Savoia was replaced by a portrait of Nikolai Lenin, the Russian Soviet premier.

While the meeting was in full swing six hundred Nationalists in military formation, issued from their quarters near the communal theatre, intending to carry out a parade through the streets and to sing war songs and shout the war cry of Gabriele d'Annunzio. At first the Nationalists were confronted by their enemies from the lunatic asylum. These nurses, all Socialists, marched to the opposite direction to the Nationalists, waving red flags.

Then a volley of rifle fire swept over the Nationalists, the shots coming from the battlements of a famous castle.

A stampede of the people immediately followed the firing. During the shooting, which continued only for a few minutes, the screams of the horror-stricken people could be heard above the volley from the rifles.

YOUTH QUESTIONED  
BY LANDIS TAKES  
THE NARROW PATH

CHICAGO, Dec. 22.—Judge Kenneth M. Landis, gave Roy Warner, aged 17, charged with carrying a \$15 sword, violent from the mails, his choice of two paths today.

"Do you want to go to hell?" the judge asked, leaning over the bench, "or do you want to go along the narrow path?" The road to hell is lined with beautiful scenery, but the other path is the better.

Warner chose the straight and narrow road, which led to jail until January 5 to give him time to "think things over," as the judge said.

GAME OF 'CRAPS'  
ANGERS JUDGE

SAN FRANCISCO, Dec. 22.—Harry Brodski, a broker, and Douglas Newton, are under sentence here today to a two-year prison term, following their conviction in federal court on a charge of conspiring to violate the federal prohibition enforcement. Brodski also was ordered to pay a fine of \$10,000 and Newton a \$500 fine.

Three times before the jury returned its verdict of guilty it reported it was unable to agree and Judge M. T. Dooley sent it back for further deliberation because reports of gambling on the verdict were heard about the court room.

Judge Dooley said the atmosphere surrounding the trial had been entirely opposed to federal procedure and favored too much of "race track probabilities."

"We are not accustomed to crap games and the like around here," he said. "But in one reason the jury was told to deliberate further."

F. W. Pinchon, of the internal revenue service was called to the stand to testify regarding the dice game that was alleged to have been held in the federal building during the jury deliberations. He said he did not know much about the game, except that "people shoot a couple of dice for aces, deuces, naturals and yell out, 'take your feet off the money!'"

Judge Dooley remarked that it was the first time in the history of the court that such actions had been carried on.

Such things do not happen around here and the judge said if it can prevent this, I am not going to deliver a lecture, but such things as were carried on while the jury was deliberating the fate of the defendants, were reprehensible."

CABLE QUARREL  
SEEN IN CAPITAL

WASHINGTON, Dec. 22.—(By the Associated Press.)—The state department intervened today in what threatened to be a controversy between the British embassy and the senate committee investigating cable communications over the question of whether there is a British censorship of cable messages to the United States originating in the British Isles.

The department's action was regarded as a rebuke to the embassy for sending direct to Senate. Kellogg, chairman of the committee, a letter demanding the testimony of Newcomb Carlton, president of the Western Union Telegraph company, that cable messages coming to the United States from Great Britain were subject to delay and examination by the British naval intelligence authorities.
